

Mission Statement

Our mission is to bring multigenerational participants together to develop and practice hands on learning in a nurturing environment. We encourage skill based learning of traditional arts and crafts. We are rooted in a community of people learning, building, and appreciating the lost arts together.

WHAT IS A FOLK SCHOOL?

Folk schools are places for learning for the sake of learning; there are no tests, grades, or exams on what you learn while taking classes. The simplest definition is that a folk school is a place where people can come to learn new skills together with the help of an instructor.
